PROFESSIONAL SUMMARY

Detail-oriented and analytical Data Analyst with a strong background in Statistics and hands-on experience delivering business intelligence, statistical process control, gaming sales analytics, and financial transaction modeling. Proficient in Advanced Excel, Power BI, SQL, Python, and R for querying large-scale datasets, cleansing messy schemas, and engineering executive dashboards. Proven track record in monitoring payment gateway failure rates, analyzing global video game sales distributions, modeling epidemiological outbreak sensitivity, and delivering data-driven insights that guide corporate decision-making.

CORE COMPETENCIES & SKILLS

Technical & Analytics Skills: Microsoft Excel (Advanced Formulas, PivotTables, Dynamic Dashboards), Power BI, SQL, Python (Pandas, Matplotlib), R, Statistical Process Control (SPC), SPSS, Google Sheets, Microsoft Word, PowerPoint.

Domain & Analytical Expertise: FinTech Transaction Analytics, Total Processing Volume (TPV) Tracking, Payment Gateway Failure Auditing, Global Gaming & Software Sales Analytics, E-Commerce Catalog Cleaning, Regional Profit Modeling, Epidemiological Control Charts.

Soft Skills: Data-driven Problem Solving, Analytical Communication, Cross-functional Collaboration, Process Improvement, Attention to Detail.

PROFESSIONAL EXPERIENCE

Data Analyst (Contract / Freelance) — Digital Payment & FinTech Analytics Services, Lagos

May 2024 – Present

- Analyzed multi-channel transaction datasets covering 2,500+ records across mobile wallets, bill payments, USSD, POS, and peer-to-peer transfers to evaluate transaction processing health and revenue drivers.
- Engineered dynamic financial models and KPI summaries in Excel to monitor Total Processing Volume (TPV), average ticket sizes, and payment gateway failure impacts (~9%).
- Designed interactive Power BI and Excel Executive Dashboards featuring MoM transaction growth trends, geographic revenue heatmaps across 10 states, and top customer tier spend leaderboards.
- Identified commercial revenue hubs (Lagos, Abuja, Rivers driving over 55% of overall processing value) and formulated gateway infrastructure optimizations to reduce transaction drop-offs.

Data Analyst Intern — Pixel Interactive Studios (Remote)

September 2024 – April 2025

- Analyzed global video game sales performance across 16,500+ title records, evaluating regional market shares across North America (\$43.8M+ top-title revenue), Europe, Japan, and global distribution channels.
- Built Excel Pivot Table models and trend dashboards analyzing publisher performance (Nintendo leading global sales, followed by EA and Activision) and gaming platform dominance (Wii, DS, PS2, X360).
- Evaluated genre-level profitability across Sports, Action, Shooter, and Role-Playing categories, delivering strategic product recommendation reports for game development prioritization.

Departmental Administrative Assistant (NYSC) — Akwa-Ibom State Polytechnic, Akwa-Ibom State

July 2024 – June 2025

- Collated and organized student academic performance records for departmental processing, statistical evaluation, and internal reporting workflows.

Data Analyst Trainee — 3MTT (Remote)

January 2024 – May 2024

- Evaluated global entertainment and music industry sales datasets (\$7.7B+ cumulative revenue) using Excel Pivot Tables and SQL to analyze historical revenue trends (1955–2011), identify peak sales years (1970 generating \$459M+), and rank top commercial artists (Bob Dylan, The Rolling Stones, and The Beatles leading with \$445M+ combined sales).
- Cleansed and parsed complex music release records across primary and sub-genres (Reggae, Pop, Rock, Soul), standardizing sales figures and string schemas across 500+ album records.
- Produced interactive executive summary reports and trend visualizations in Excel, improving data retrieval efficiency and strategic reporting accuracy by 25%.

Data Analyst Intern — Vephla Tech (Remote)

February 2024 – April 2024

- Evaluated 9,000+ retail records to analyze regional profit distributions, top-performing product categories (Binders, Paper), and profit margins by shipping mode.
- Cleaned 3,600+ e-commerce product listings by eliminating 217 duplicate entries and engineering SEO-optimized short titles using Excel text functions (LEFT, SUBSTITUTE, LEN).
- Standardized global AI/data salary datasets across currencies (USD, GBP, EUR) and remote ratios to ensure 99.8% report reliability.
- Developed interactive dashboards in Power BI and Tableau that reduced weekly reporting time by 30% for 50+ stakeholders.

KEY PORTFOLIO PROJECTS & CASE STUDIES

Prevalence of Monkeypox Virus Spread Using CUSUM & EWMA Control Charts

- Analyzed confirmed NCDC Monkeypox epidemic case data using Cumulative Sum (CUSUM) and Exponentially Weighted Moving Average (EWMA) control charts.
- Proved through Average Run Length (ARL) comparison that CUSUM charts are more sensitive and efficient at detecting out-of-control epidemiological spikes across states.

PMS (Fuel) Price Trend Analysis in Nigeria

- Executed exploratory data analysis (EDA) on historical Premium Motor Spirit (PMS) pricing datasets from government publications to track state-by-state price variances and inflation trends.

EDUCATION & ACADEMIC QUALIFICATIONS

Higher National Diploma (HND) in Statistics — Distinction (CGPA: 3.50) | Federal Polytechnic, Ilaro (2023)

National Diploma (ND) in Mathematics & Statistics — Upper Credit (CGPA: 3.34) | Lagos State Polytechnic (2019)

CERTIFICATIONS & PROFESSIONAL TRAINING

- 3MTT Data Analysis & Visualization Certification (2024)
- Essentials of Data Visualization using MS Excel — UniAthena (2024)
- Essentials of MS Excel: Formulas & Functions — UniAthena (2024)
- Basics of Data Science & Python Programming — UniAthena (2024)
- Data Science and Analysis — HP Foundation (2024)
- Introduction to Cybersecurity Awareness — HP Foundation (2024)
